Letter of Invitation

Dear Mr. Howitt,

Thank you for the valuable input you have provided regarding the energy transition in areas such as renewable energy, national and international electricity grid resilience, the hydrogen economy, carbon capture use and storage, sustainability in general, renewable transport and national and international energy transition plans. Your understanding of the political, regulatory, technical and business issues is very helpful, as is your ability to explain such matters in terms readily understood by non-specialists. Your evident expertise would be valuable to a number of our expert groups. We would like to invite you to join our:

- Task Force on Carbon Neutrality
- Group of Experts on Cleaner Electricity Systems
- Group of Experts on Renewable Energy

The UNECE (United Nations Economic Commission for Europe) is one of the five regional commissions under in the UN. Our mission is to promote pan-European economic integration across 56 member States in Europe, North America and Asia. We therefore play a leading and coordinating role in helping the region and the world in general achieve the United Nations 2030 Agenda for Sustainable Development.

We look forward to working with you.

Yours sincerely,

Scott Foster
Director
Sustainable Energy Division
